

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION III  
841 Chestnut Building  
Philadelphia, Pennsylvania 19107

110033

SUBJECT: C&D Recycling Site

DATE: 3-19-93

FROM: Joe McDowell *JM*

TO: File

I received a phonecall from Harvey Rotzell today concerning C&D, who raised the following issues:

-He stated that the EPA is ignoring the Township and their regulations. I stated that the EPA had reviewed the Township's ordinance prohibiting landfills, but that Superfund actions are exempt from local ordinances.

-He wanted the Site repository updated.

-He wanted copies of all correspondence sent to the Township, not just CCFT.

-He requested a copy of the AT&T proposal for the Township ASAP.

I received a follow-up phonecall from Harvey Rotzell on March 19, 1993, concerning the following issues:

-The decision should provide a permanent solution, and should not be made just to save AT&T money.

-He stated that the Township was not looking for confrontation with the EPA, but stated that he could not accept certain EPA personnel participating in any future public meetings. I told Mr. Rotzell that I did not control who from the EPA attended the meetings (management-level decision).

-He stated that he has a call into Carol Browner concerning the Region's handling of this Site.
